JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

enough to take on a customs inspector. She then went to Jucaro in the southern part of this island, arriving there on February 25. During her stay in Jucaro she lay in open bay, as it is not possible for vessels of her draft to go nearer than 2 miles of shore. She stayed there 4 days, sailing March 1 for Tampico, Veracruz, and Coatzacoalcas, Mexico. There is no quarantine officer nor practicing physician in Jucaro, which is a village of about 200 inhabitants. (See Public Health Reports, March 29, 1907, p. 348.)

No yellow fever has been reported in Jucaro.

April 2. The following statement is received from Major Kean, adviser to the Sanitary Department:

In reply to your inquiry of this date I have the honor to inform you that Habana is free from yellow fever, no case having occurred here during the present year.

*Report from Matanzas—Inspection and fumigation of vessels.*

Acting Assistant Surgeon Nuñez reports, March 25, as follows:

Week ended March 23, 1907. Bills of health issued to 7 vessels leaving for the United States in good sanitary condition. The schooners *Hibernia*, British, and *Isaac T. Campbell*, American, the former bound for Savannah and the latter for Mobile, were fumigated on March 21 and 22, respectively, both being towed out of the harbor immediately after the fumigation was completed with all compartments closed, to be opened at sea.

*Report from Santiago—Inspection of vessels.*

Temporary Acting Assistant Surgeon Infante reports, March 19, as follows:

Week ended March 16, 1907. Bills of health issued to 9 vessels bound for the United States. No vessel was fumigated. No quarantinable disease has been reported.

FRANCE.

*Report from Roubaix—Smallpox at Dunkirk.*

Consul Coleman transmits the following information received from Commercial Agent Morel at Dunkirk, under date of March 11:

Smallpox was brought to Dunkirk on the 6th ultimo by a steamship coming from certain Mediterranean ports, and which had last touched at Rouen. Up to March 8, 12 cases occurred, with 5 deaths; of the remaining 7 cases, 2 are reported convalescent, 2 serious, and 3 slight.

All cases except 2 have clearly resulted from contact at the hospital.

HAWAII.

*Plague death at Honolulu.*

Temporary Chief Quarantine Officer Ramus reports as follows: March 29. There was a death from plague to-day.
